Gilford Williams
Software Developer
Atlanta, GA | (404) 916-9061
GilfordWilliams.com | github.com/GilliamD | linkedin.com/gilford-williams | Gil@GilfordWilliams.com

Creative software engineer with the ability to pick up new languages and technologies on demand. Prior to being a software developer, I worked as management and in sales where I developed the talent to create new solutions for streamlining business processes and customer experiences.

Software Development Skills

- Debugging, JavaScript, Python, Node.js, React, Express, Redux, RESTful API, PostgreSQL, Bootstrap, Flexbox, Bulma, AWS, Java, HTML, CSS, Docker, Git/Github

Education

DigitalCrafts | Certificate in Software Engineering | Atlanta, GA   Aug 2019 – Dec 2019
- Sixteen-week software engineering training program focused on full-stack development. The curriculum covered topics including but not limited to JavaScript, Python, cutting-edge frameworks like React/Redux, and server-side technologies including Node.js, Express, and PostgreSQL.

Software Development Portfolio

Kuiarasu | Kuiarasu.com | github.com/GilliamD/Kuiarasu   Nov 2019
- Lead development efforts for a social platform to help the subcultures of fandom.
- User experience allows for the ability to easily create and share information about products relating to their specific topics and to communicate with others.
- Working project is built with React, Node.js, Express, and PostgreSQL.

My Vita Log | MyVitaLog.com | github.com/GilliamD/NutritionProject   Oct 2019
- Member of a 3-person development team building a nutrition web-app to educate users, help them track nutritional information, and provide them with reminders about their nutritional intake as it's updated.
- Primary responsibilities included planning, designing, and establishing website structure. Additionally, I sourced medical and other database information.
- Built and designed using Node, Express, Postgres, Bulma, and the official USDA API.

Plus Ultra | dazzling-galileo.netlify.com | github.com/GilliamD/API-Plus-Ultra   Sep 2019
- Member of a 3-person development team building a video game search and anime recommendation website, enabling users to search for video game information and browse a curated anime selection.
- Responsibilities included design, assembling the structure of the anime web-app, and routing information being passed from the database's API endpoints.
- Built and designed with HTML, CSS, JavaScript, jQuery, Bootstrap, and Flexbox.

Professional Work Experience

DigitalCrafts | Student | Atlanta, GA   Aug 2019 – Present
- Placeholder

Jeff Smith Kia | Sales Advisor | Perry, GA   Nov 2018 – Aug 2019
- Liaison for Repair Techs and Guests where I discussed and ensured the accuracy of customer orders.
- With an emphasis on customer satisfaction, I performed quality control upon conclusion of each service.
- Increasing up-sell was encouraged and my personal sales growth went from 82% to 134%.

GameStop | Assistant Store Manager | Atlanta, GA   Sep 2013 – Nov 2018
- Co-developed the internal store strategy to meet and exceed revenue targets, adjusting sales strategy and marketing where necessary. I helped increase revenue from $1.8M to $2.2M during my tenure.
- Mentored and trained the team for cohesiveness and efficiency while reducing/eliminating conflicts. I also evaluated and implemented feedback from both guests and the team to optimize our processes.
- Focused on building and maintaining a guest culture of community through both service and events.

Additional details on prior work experience available upon request.

Extra

GSU Fall 2019 Hackathon | Volunteer | Atlanta, GA   Nov 2019
- Assisted both the Director and Student Director for the event.
